

About Us

Today's threats no longer resemble the physically identifiable threats of the past. Often, the threat of today simply operates in the information shadows, often invisible to our nation's technical means of collection. Now, more than ever before, it is critical that leaders, planners, operators, and analysts know the mind of the enemy... how he thinks, what he believes, what motivates him and why. It is no longer enough to rely on "hard" intelligence information from conventional sources to determine our enemies' next most-dangerous courses of action. The methods and expertise developed at Red Mind Solutions, Inc., are proven at delivering the mind of the enemy to our nation's top operational commanders. At Red Mind Solutions, Inc., these services are available to all in government and industry who must see the world through the eyes of those who would do them harm.

Red Mind Solutions, Inc. is a Service Disabled Veteran-owned company.
